PROFESSIONAL SUMMARY

Results-driven Full Stack Developer with **2+ years of experience** building scalable, responsive enterprise web applications using Angular, TypeScript, and RxJS. Delivered production-ready solutions across 3 companies — spanning enterprise dashboards, AI-integrated real-time systems, and cross-platform UIs. Proficient in NgRx state management, REST API integration, and cross-functional collaboration. Seeking a challenging Full Stack Developer role to build impactful, high-performance web products.

TECHNICAL SKILLS

Full Stack	Angular (v12–20), TypeScript, JavaScript (ES6+), HTML5, CSS3
Libraries	RxJS, NgRx, Angular Material, Bootstrap
Tools	Git, Angular CLI, npm, Postman, Swagger, VS Code, Firebase Realtime Database
Backend / Integration	REST APIs, Flask, SQL, phpMyAdmin, CRUD Operations
Concepts	Lazy Loading, Dynamic Routing, Reactive Forms, Component Architecture, State Management
Analytics	Power BI, Log Analysis, Real-Time Error Tracking

PROFESSIONAL EXPERIENCE

Full Stack Developer | Rectitude Consulting Services Pvt Ltd — Aug 2025 – Present | Pune, Maharashtra

- Architected enterprise-grade Angular modules with reusable component libraries, reducing feature development time across multiple projects.
- Implemented NgRx state management and RxJS reactive streams to manage complex asynchronous data flows in large-scale applications.
- Built multi-step Reactive Forms with custom validators and Angular Material dialog workflows, streamlining critical business user interactions.
- Integrated RESTful APIs with strict TypeScript typing, eliminating runtime type errors and improving overall data reliability.
- Resolved production-level bugs and conducted root-cause analysis, improving application stability and reducing reported UI issues.
- Applied Angular change detection optimization strategies, delivering measurable improvements in rendering performance.

Junior Full Stack Engineer (AI) | Micropro Software Solutions Ltd — Jan 2025 – Aug 2025 | Nagpur, MH

- Developed responsive **Angular 18** interfaces for an AI-powered Grain Detection and Classification system, providing real-time feedback to operators.
- Built image rendering and log visualization modules to display AI model outputs, improving inspection workflow efficiency for quality control teams.
- Integrated Flask REST APIs with the Angular full stack, enabling seamless data exchange between AI backend services and the UI layer.
- Implemented real-time diagnostic alert dashboards and error tracking modules to monitor AI pipeline health and flag anomalies instantly.
- Managed structured data using Firebase Realtime Database and phpMyAdmin, ensuring consistent data flow across all application modules.

Full Stack Developer | Francina & Francis Consulting Pvt. Ltd — Dec 2023 – Nov 2024 | Nagpur, MH

- Built fully responsive, cross-browser-compatible Angular UIs delivering consistent user experience across desktop and mobile platforms.
- Integrated RESTful APIs with real-time data synchronization, enabling live dashboard updates without page reloads.
- Implemented Angular Router with dynamic routing and lazy loading, reducing initial bundle size and improving application load time.
- Collaborated with backend developers to design efficient data flow patterns and maintained technical documentation for team onboarding.
- Applied Bootstrap grid system and custom CSS to deliver pixel-accurate, mobile-first layouts matching client design specifications.

EDUCATION

B.Tech – Mechanical Engineering
Govindrao Wanjari Engineering College, Nagpur, Maharashtra

Diploma – Mechanical Engineering
GH Raisoni Polytechnic, Nagpur, Maharashtra

CERTIFICATIONS

- SQL – Atlanta Computer Institute (6 Months)
